

# LOST PET TIPS

- 1 Before your pet has time to roam too far, immediately begin searching within a 2 mile radius from where your pet was last seen.
- 2 Gather neighbors and friends to search the area your pet was last seen. Don't forget your pet's favorite treat/toy and call out words they respond to, like "toy" or "treat" along with their name.
- 3 Create & print lost pet posters including your pet's name, photo & phone #. (AKC Reunite makes it easy with our Lost Pet Alert). Display posters around the area your pet was last seen, including vets and local parks.
- 4 Contact all of your local shelters, humane societies and the police to report your pet missing.
- 5 Expand your search & visit local shelters and humane societies to see if your pet is there. Keep optimistic and REMEMBER, if your pet is microchipped, the chances of your pet returning increase dramatically!

## BONUS TIP!

BE SURE YOUR PET IS ENROLLED IN A RECOVERY SERVICE! CALL AKC REUNITE AT
